LeetCode — Portfolio Website — Kollam, Kerala

TECHNICAL SKILLS

Languages: C++, Java, Python, SQL, JavaScript

Frameworks & Libraries: Spring Boot, Spring Security, JPA/Hibernate, Flask, OpenCV, dlib

Backend & APIs: REST API Development, JWT Authentication, Transaction Management, Redis Caching, Swagger/OpenAPI

Databases: PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, Maven, Docker, Docker Compose

EXPERIENCE

Edunet Foundation (AICTE & Shell)

Aug 2025 – Sep 2025

Artificial Intelligence Intern (Virtual)

Remote

- Built and deployed a wildfire prediction solution using Python, Scikit-learn, Pandas, NumPy, and Streamlit.
- Trained classification and regression models using 8 environmental and weather features to predict wildfire occurrence and fire intensity.
- Evaluated model performance using Accuracy, RMSE, and R^2 , and developed an interactive dashboard for real-time predictions and model insights.

PROJECTS

Financial Ledger System | Java 21, Spring Boot, PostgreSQL, Redis, Docker, JPA/Hibernate, Spring Security

GitHub

- Developed a real-time financial ledger system using Java 21, Spring Boot, PostgreSQL, Redis, Docker, JPA/Hibernate, and Spring Security with JWT-based authentication.
- Designed and implemented 10+ RESTful APIs for account management, fund transfers, transaction history, account statements, and secure user access.
- Ensured data consistency during concurrent transactions using ACID-compliant transaction management, pessimistic locking, idempotency controls, validation, and centralized exception handling.
- Integrated Redis caching, pagination, Swagger/OpenAPI documentation, JUnit testing, and Docker Compose to improve performance, maintainability, and deployment efficiency.

AI Driver Drowsiness Detection System | Python, OpenCV, dlib, Flask

GitHub

- Engineered a real-time driver monitoring system using Python, OpenCV, dlib, and Flask.
- Implemented fatigue detection using 68-point facial landmark tracking, EAR-based blink analysis, and MAR-based yawn detection.
- Built a live dashboard with 6+ monitoring metrics, automated alerts, event logging, and screenshot capture.

EDUCATION

Cochin University of Science and Technology

Expected 2027

B.Tech in Computer Science and Engineering

CGPA: 7.72

Younus College of Polytechnic

Aug 2022 – Apr 2024

Diploma in Computer Engineering

CGPA: 9.04

ADDITIONAL

Achievements

- Solved 350+ Data Structures and Algorithms problems on LeetCode.
- Earned the 100 Days Badge on LeetCode.

Languages

- English | Hindi | Malayalam
